September 5, 2008

The attached report represents a consolidation of Reports of Condition filed by state-chartered banks with the Missouri Division of Finance as of June 30, 2008, and a comparison with the statements filed one year earlier.

Also included is a comparison of financial statements of state-chartered and national banks.

During the previous twelve months, the number of state-chartered banks and trust companies decreased by five from 302 to 297. Five banks and one nondeposit trust company merged into out-of-state institutions. One nondeposit trust charter was dissolved. There was one bank failure when Hume Bank was closed by the Commissioner on March 7, 2008. There were three new bank charters granted, two of which were issued when national banks converted to a state charter.

Assets in state-chartered banks totaled \$73.6 billion on June 30, 2008, an increase of 9.6 percent from one year earlier. Deposits were \$58.5 billion, up 8.0 percent. Total loans were \$54.1 billion on June 30, 2008, up 9.4 percent.

The equity capital ratio decreased to 10.45 percent. Primary capital, which includes the allowance for loan and lease losses, was also down, to 11.46 percent. The tangible equity capital ratio decreased to 8.94 percent. Despite these changes, capital remains strong in Missouri banks.

Net income in state banks was down 46.2 percent from June 2007. Return on assets among state-chartered banks was 0.53 percent compared to 1.07 percent in June 2007. The income decline is influenced by a small number of banks with ten banks accounting for a substantial portion of the earnings decline. The return on assets for the remaining 280 banks was 1.02 percent.
