The attached report represents a consolidation of Reports of Condition and Income filed by state-chartered banks with the Missouri Division of Finance as of December 31, 2014, and a comparison with the statements filed one year earlier. Also included is a comparison of financial statements of state-chartered and national banks.

During the previous twelve months, the number of state-chartered banks and trust companies increased by two from 260 to 262. During these past twelve months two banks merged into other institutions and four new state bank charters were granted; as three national institutions and one state-thrift converted to state-chartered banks.

Assets in state-chartered banks totaled \$103.9 billion on December 31, 2014, an increase of 5.8 percent from one year earlier. Deposits were \$85.8 billion and total loans were \$64.2 billion on December 31, 2014, an increase of 4.4 percent and 10.7 percent from one year earlier, respectively.

The overall condition of Missouri state-chartered banks continued to improve in the fourth quarter. The attached graphs illustrate improvement in several component areas. Asset quality has improved since last year, with the past due ratio declining to a manageable 1.58 percent from 2.00 percent one year earlier. The return on assets has stabilized and remains strong at 1.07 percent, despite a compressed net interest margin. The median return on assets for state-chartered banks is 0.96 percent as of December 31, 2014.

Capital remains strong, as the Tier 1 Leverage Capital is 9.79 percent of total assets, which is slightly above the national average of 9.46 percent.
