Richard J. Weaver
Commissioner of Finance

March 4, 2011

The attached report represents a consolidation of Reports of Condition filed by state-chartered banks with the Missouri Division of Finance as of Dec. 31, 2010, and a comparison with the statements filed one year earlier. Also included is a comparison of financial statements of state-chartered and national banks.

During the previous twelve months, the number of state-chartered banks and trust companies decreased by eight from 289 to 281. Two banks and one nondeposit trust company merged into other institutions. Five state-chartered banks closed in the twelve-month period.

Assets in state-chartered banks totaled \$71.5 billion on Dec. 31, 2010, a decrease of 11.1 percent from one year earlier. Deposits were \$59.6 billion, down 9.1 percent. Total loans were \$47 billion on Dec. 31, 2010, down 12.9 percent. The decline in each of these categories is largely the result of two events: One large bank merged into its out-of-state affiliate; and another large bank sold a number of its out-of-state branches, including loans and deposits, to out-of-state banks.

Asset quality remains challenging for Missouri state-chartered banks. The level of foreclosed real estate remains high at 1.23 percent of total assets (as compared to 1.02 percent as of Dec. 31, 2009, and 0.74 percent as of Dec. 31, 2008.) There are some signs of improvement. Net loan charge-offs remain elevated, but improvement is noted in the last 12 months and Missouri's rate of charge offs is considerably lower than the national average. Banks continue to build reserves due to the adverse effects of the economy; and the Allowances for Loan and Lease Losses remains strong at 2.21 percent of total loans.

The return on assets for 2010 was 0.28 percent; however, the median return on assets was 0.75 percent. Net interest margins have improved to the highest level in three years at 3.96 percent. Provision expense appears to be moderating as 2010 provision expense for all state banks totaled \$685million, compared to \$1.035 billion in 2009. The percentage of Missouri state-chartered banks losing money for the year stood at 15 percent; considerably better than the national average of 21 percent of all commercial banks.

Overall, the condition of Missouri state banks is improving, and strong capital levels have been maintained throughout these challenging economic conditions.

A handwritten signature in cursive script that reads "Richard J. Weaver".

Richard J. Weaver
Commissioner of Finance

**COMPARATIVE STATEMENT OF CONDITION
STATE BANKS AND TRUST COMPANIES IN MISSOURI
AS OF DECEMBER 31, 2010**
